

Allied Health Industry Reference Group convened by the Federal Chief Allied Health Officer

CA CEO attended a recent AHPA Member Collaborative Forum which included the following:

- Draft National PHN Allied Health in Primary Care Engagement Framework noting that PHN's relationship with allied health professionals is growing and could be further enhanced. PHN's are commissioning allied health services and seeking to improve engagement with, and understanding of, allied health community needs and service capacity.
- The National Office of Child Safety presented a paper on Creating a Child Safe Culture.
- A subscription service to be notified of Australian Government allied health matters is now available on the Department of Health and Aged Care website.
